

# Country Paradise

By: Gracie Lott

## Verse 1

Radio up and windows down, Gonna get the heck out of this town

Texas night's bonfires, Two stepping and the sparks are flyin'

Just you and me on a big porch swing, Heat of the summer sipping on sweet tea

Just you and I staring up at the sky, Watchin' the leaves change before our eyes

## Chorus

Just a simple love

Is all I've ever dreamed of

Just a hand to hold when life gets rough

All I need is you by my side

Cause you are my country paradise oh

You are my country paradise

## Verse 2

Boots off by the lake, sittin' on the back of a tailgate

Layin' out, the sun is shining, water's warm and the fish are bitin'

Flash forward: Fourth of July, wtching the fireworks in the sky

Don't need nothin' more, Just you and me and the great outdoors

## Play Chorus

## Bridge

They can have their fancy buildings, they can have their shiny cars

They can have anything but, can't have what's ours

## Play Chorus then end
